Verbal Description:

Human face with the head of a jaguar poked atop it. The human face with almond shaped eyes, a large, applied triangular nose, & raised margin mouth. The head looks as if it is emerging from the mouth of the jaguar as the lower jaw is also visible. The cat's head includes inset eyes, a pig nose, and a snaky upper lip. There are traces of red paint on the latter surface, the margins flare upward away from the faces, but the form of the rest of the head is unclear. Inset shifted pig nose.
